Indicator lights

Indicator lights and push buttons
These produts are used for remote controlling signalisation of any event in any electric installation (domestic, tertiary & industrial)
LED technology providing longer life, new design, integrated label holder

Connection capacity :
- 10 mm^2 rigid
- 6 mm^2 flexible

Standard conformity :
IEC 62094-1 for indicator lights

Designation	Characteristics		Width in 17.5 mm	Pack qty.	Cat. ref.
Single indicator light 230 V ∿	with light :	green	1	12	**SVN 121**
		red	1	12	**SVN 122**
		orange	1	12	**SVN 123**
		blue	1	12	**SVN 124**
		color less	1	12	**SVN 125**
Double indicator light 230 V ∿	with light:	green and red	1	12	**SVN 126**
		color less 2x	1	12	**SVN 128**
Triple indicator light	with light:	red	1	12	**SVN 127**
		red/orange/green	1	12	**SVN129**
		green	1	12	**SVN 221**
Low voltage indicator lights 12 to 48 V AC/DC	with light	green	1	12	**SVN 131**
		red	1	12	**SVN 132**
		orange	1	12	**SVN 133**
		blue	1	12	**SVN 134**
		color less	1	12	**SVN 135**
