

# Berker R.1/R.3

A brilliant tradition. A global model of success. And a great heritage, that we need to protect and further develop. Around a century after we built the first switch with a circular profile, we now are opening the next chapter. With the switch programmes Berker R.1 and Berker R.3, which the designer Werner Aisslinger created with Berker, we carry the great tradition of round switches into the future. The Berker R.1 and Berker R.3 are the only programmes on the German market to consistently offer round centre plates universally. We offer both in the surfaces plastic, glass, aluminium and stainless steel, as well as a universal variety of functions. Both series reinterpret the tradition of round operating elements in an unmistakeable way.

- The contemporary rediscovery of round switches
- The only switch programmes with fully round centre plates
- High-quality surface material: plastic in polar white/black (glass, aluminium or stainless steel of 3 mm thickness)
- Basic support made of 7 mm-thick plastic

Covers / Central inserts

Plastic, glossy  
polar white      similar to RAL 9010  
black              similar to RAL 9005

### SCHUKO socket outlet 45°

**i** 474

Rated voltage	250 V~	– for diagonal installation
Rated current	16 A	– with plug-in terminals

Specially suited to combinations of several socket outlets if right angle plugs are used.

Design	Order no.	PU
polar white glossy	<b>4727 20 89</b>	10
black glossy	<b>4727 20 45</b>	10

### SCHUKO socket outlet with LED orientation light

**i** 474

- enhanced contact protection
- screw-in lift terminals

Rated voltage	250 V~
Rated current	16 A
Power consumption	0.25 W/0.35 VA
Switch-off brightness	ca. 4 lx
Light intensity (white)	0.2 cd
Switch-on brightness	ca. 2 lx
Frequency	50/60 Hz

- additional benefit by combination of a socket outlet with an orientation light
- integrated brightness sensor that switches the orientation light on at twilight and off when there is sufficient brightness
- through-wiring possible, therefore also ideal for retrofitting
- long service life of the LED
- white LED light
- with screw-in lift terminals

Caution!  
Items with special flush-mounted insert.  
Centre plates with LED orientation lights are not compatible with the standard socket outlets.

Design	Order no.	PU
polar white glossy	<b>4109 20 89</b>	10

## Time switches for blinds

### Blind time switch

**i 468**

- display
- Change-over time for change of direction  $< 0.6$  s
- Minimum slat adjustment time  $\approx 250$  ms
- Running time 2 min
- Astronomic time shift  $\pm 2$  h
- Random number generator  $\pm 15$  min
- Power reserve  $\approx 24$  h
- Number of operation times for up/down 20
- with keylock
  - party function, no execution of automatic, radio and extension unit commands (lock-out protection)
  - reset function (to factory setting)
  - low intrinsic energy requirement
  - with automatic summer-/winter time switching (can be switched off)
  - astro programme for sunrise/sundown switching with city/country or co-ordinate input, individually adaptable
  - holiday programme for random variation of the operation times in automatic operation
  - indication of the application module/insert compatibility in the display
  - LC display illuminated during operation
  - LC display contrast is adjustable
  - with switchover manual/automatic mode
  - 2 independent preset programme memories, individually adaptable
- Can be switched to orientation led by extension unit - this function will be available from Q3 2015.
- Control using device buttons and programmed switching times.

# Berker R.1

It stands unmistakably in the tradition of great switch programmes. And still, the Berker R.1 interprets the round radius anew in its own way. With its soft frame contour and a variety of functional versions, the soft round switch is an ideal accompaniment for all residential and furnishing projects.

- Great novelty in the tradition of major switch programmes
- Soft frame contour, wide range of function variants
- High-quality surface material: plastic in polar white/black (glass, aluminium or stainless steel of 3 mm thickness)
- Basic support made of 7 mm-thick plastic

## Frames

Plastic, glossy

R.1/R.3  
Frames

# Berker R.3

The Berker R.3 celebrates the power of contrast: we combine circular centre plates with a continuously cornered frame. Superb side-effect: The Berker R.3 is ideally suited for installation in wall ducts.

- Exciting design (square frame, round centre plates)
- Ideal for installation in wall ducts
- High-quality surface material: plastic in polar white/black (glass, aluminium or stainless steel of 3 mm thickness)
- Basic support made of 7 mm-thick plastic

## Frames

Plastic, glossy  
polar white      similar to RAL 9010  
black              similar to RAL 9005

Glass  
polar white      similar to RAL 9010  
black              similar to RAL 9005

Metal  
aluminium, natural anodised  
stainless steel, matt finish
